

BX100P Portable Air Compressor

Specification	
Medium	Air
Ambient temperature	-5~+50°C
Safety valve setting	330 bar
Working Pressure	300 bar
Capacity	100 l/min
Number of Compression stages	4
Number of Cylinders	4
Drive	Gasoline
Size (D*W*H)mm	650mmX400mmX410mm
Weight	45kG
Breathing air standard	EN12021 EU EN12021
Product Certification	CE / CCS / ISO9001 Exported EU CE certification ,CCS Solas ,ISO 9001 quality system
Model	
Engine Type	5.5PS HONDA Petrol Engine 4 Stroke
Power	5.5HP Honda GX160
Speed	2840 r/min
Insulation class	B
Noise	≤85
Note ※	Special requirments can do customised

● Compressor main unit

- Splash lubrication
- Oil sump content: 0.3 L
- Intake filter element

- Setting cooler after every compressed
- After compresses gas through the cooler ,and its temp is higher around 10-15°C then the ambient temp 10-15 °C.
- Intermediate oil/water separators after each stage (except 1st stage)

- Final Oil/water separator

- Setting Safety valves after each stage

- Final pressure safety valve

- Setting Pressure maintaining valve before compressor exported , and around 15mpa ,automatically open ,can Extended purifying filter life

- First oil filling with final test

● Configuration and style of unit

- Arrangement of the unit on solid base frame

- Drive : HONDA

- High pressure outlet: fitting 8S for pipe \varnothing 8mm

● Supervision or control of

- Final pressure
- Germany WIKA Pressure Gauge (lifetime warranty)
- Automatically pressure stopped

(※ means can be customised)
